TELEPHONE INTERVIEW SUMMARY

The undersigned attorney called Examiner Kiet Doan today, to discuss the merits of the claim rejections in the Final Office Action. In particular, the conversation focused on the rejection of claims 1 and 10 as obvious over the combination of Black (U.S. 6,397,070) and Soliman (U.S. 5,859,838).

The undersigned stated that Black did not teach transmitting a target transmit power to a mobile station within the meaning of the rejected claims, and asked whether the examiner was equating the transmission in Black of an indicator that a base station's reverse link capacity had been reached (col. 5, line 60+ in Black) with the claimed target transmit power. The examiner stated that he was not prepared to discuss details of the rejection. The undersigned also stated

that Soliman did not provide any teachings regarding the transmission of a periodic reverse link load indicator to mobile stations.

Respectfully submitted,

COATS & BENNETT, P.L.L.C.
